

**Specifications:**

The profile sanding wheels are made in two sizes conforming to EN 12413.

D = 200 mm; H = 76 mm;  
T = 10 - 100 mm (in 5 mm increments)  
for max. rotational speed of  
1950 rpm; 20m/s

D = 150 mm; H = 30 mm;  
T = 10 - 100 mm (in 5mm increments)  
for max. rotational speed of  
3000 rpm; 20 m/s

**Prices:**

The price is calculated on the basis of the wheel thickness "T"

Type 3009, 3010, 3033    T : 10mm = 29 €  
Type F 17                    T : 10mm = 13 €  
Set of wheel flanges: 27 €

**Ordering:**

We need the following information to process your purchase order:

1. Type 3009, 3010, 3033 or F17
2. Diameter 200 mm or 150 mm
3. Number of wheels in particular thickness "T"
